LUXURY HYBRID  
SPC FLOORING

# Why Decoline?

As an industry pioneer,  
Decoline always brings you better solutions for your flooring.

## Sound Insulation

The thicker core of Decoline SPC Flooring makes it superior when it comes to sound insulation. The thickness helps to absorb the sound, so it's quieter when walking on these floors.

## Eco-friendly

Not only it is formaldehyde-free, but there is no plasticiser inside.

## Stability

The thick and dense core makes it more resistant to expanding and contracting from moisture exposure and extreme temperature fluctuations.

## Durability

Decoline SPC flooring is resistant to scratches and stains. It holds up well to wear and tear even in high-traffic areas of the home. If you're concerned about durability, 7mm & 8mm Decoline rigid planks are the answer.

## Waterproof

Decoline SPC flooring features an entirely waterproof core. You can lay it in areas of the home where hardwood and other moisture-sensitive flooring types are not typically recommended, such as laundry rooms, basements, bathrooms, and kitchens.

## Foot Feel

With a 7&8mm thickness, it feels more stable and cushioned when walking on it. That thickness also helps to provide insulation to keep the floors warmer.

## Easy Installation

Decoline SPC flooring is made to be installed on top of just about any type of subfloor or existing floor as long as it's flat and sound. You won't have to deal with messy glues since the planks easily attach to one another to lock into place.

# Aesthetic Pleasure

At Decoline Hybrid flooring, each board out of **20** is individually patterned with an authentic timber grain, delivering the most natural feel to your home.

SPC Hybrid Flooring

## The Herringbone SPC Hybrid Flooring

The Herringbone flooring is a revolutionary floor system that has a lot of pattern repeats and is a very durable and resilient flooring option amongst Australian households. It has all the advantages that hybrid flooring is celebrated for; such as its high scratch resistance and waterproof properties.

# SCOTIA

## Unique Scotia Colours

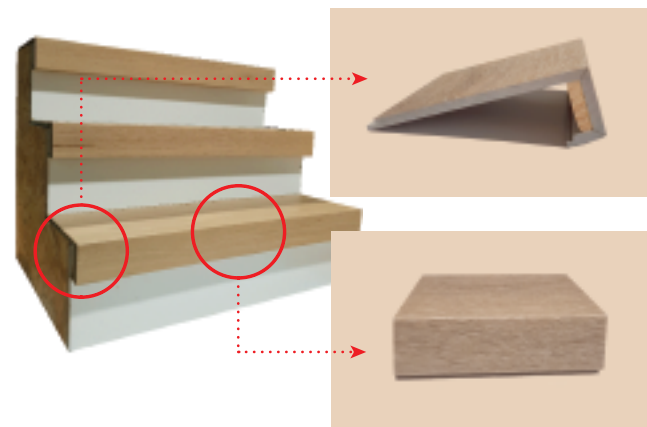

The next best alternative to removing your skirting boards, is Decoline's scotia range. We have a range of well rounded colours to match our entire hybrid and vinyl ranges. They are manufactured to be water-proof and are easy to install.

# STAIR NOSING

## Hybrid Stair Nosing

Want a clean flow through your home when transitioning from your stairs to your flooring? Look no further than Decoline's hybrid stair nosing product. All Decoline's hybrid flooring has matching stair nosing made from the floor boards themselves. This ensures a bespoke and modern aesthetic which continues from downstairs to upstairs in your home.
