HERRINGBONE

Herringbone

iDESIGN OAK COLLECTION

A refined collection of sustainable European timber inspired by nature and crafted by passion.

i Design Herringbone Collection

Regardless of oak plank flooring, the traditional herringbone is back in vogue. We want to bring in the warmth from a wooden floor and at the same time add something special to our home.

We dare to mix the traditional with the modern, different patterns can be found in modern new apartments and units as well as in traditional and venerable houses.

What Makes iDesign Herringbone So Unique?

Pre-finished and Ready To Walk On

iDesign Herringbone Floor is ready to walk on immediately after installation, no additional coats are required.

Timeless, Stylish Colors

Developed from the latest interior trends and inspired by nature.

Parquet Patterns

Available in matching herringbone patterns, have the right format for many styles.

Low - Maintenance

iDesign's micro-bevels and lightly brushed texture not only looks elegantly natural, but also prevents dirt entrapment resulting in a floor that is both beautiful and conveniently low-maintenance.

Additional Surface Treatments

A refined treatment which creates a discreet brushed effect, accentuating the characteristics of the timber, bringing out the natural structure of the wood grain.

Matching Accessories

Stair nosings made from iDesign Herringbone flooring are available in matching colors to achieve easy and cohesive interiors.

Engineered Construction

Greater stability without the risk of cupping and warping.

Sustainably Certified

FSC certified, meaning it is ethically sourced from sustainably managed forests.

Sound Reduction

iDesign collection works perfectly with Pro -Insul Acoustic Underlay, creates a feeling of calm throughout your home.

14 mm Engineered Flooring	43	66	5
15 mm Engineered Flooring	42	61	5
20 mm Engineered Flooring	44	61	5

Maintenance Guide

To avoid scratches, apply felt pads to your furniture legs and use only soft rubber casters. Protect high traffic areas with runners and area rugs.

Do not use a wet spray microfiber mop. Use a well rung out damp cloth to clean up any dirt and footprints, but avoid using excessive moisture. All spills should be cleaned up immediately. Never use wax, polish or scouring agents as they may dull or distort the finish. You can use acetone or a cleaner specially formulated for oak floors to remove stubborn marks.

Variations and Flooring Facts

Riverhill Floors Products are made from natural materials. Individual pieces and batches may vary in colour, texture and naturally occurring features.

Reproduction in printing and photography are for guidance only. These give an indication of colour and are not necessarily representative of the overall effect or design.

When making your selection, please take care when selecting from a single sample, as this is only an indication.

In all jobs, the flooring products supplied will contain variation from board to board and job to job, and from the samples on display. The colour of your flooring may change over time with exposure to UV light.

Each flooring product continues to take up and release moisture during its life, depending on local conditions, environmental conditions and weather changes. Being aware of this and checking conditions is important before installation.

For a lasting floor product, it is essential to install your floating floor in accordance with Riverhill's guidelines. Please read installation guides before proceeding with your flooring installation.

Warranty

Riverhill iDesign herringbone flooring is subject to 25-year residential (domestic) wear warranty, 5-year commercial warranty (by request) and lifetime structural warranty.

Our products are guaranteed to be delivered free from defects in material and workmanship and are warranted in their original manufactured condition.

Gloss reduction and scratches caused by regular traffic are not covered by warranty.

Please contact our sales representative to view full warranty wording, terms and conditions.
